

How can a company become a supplier to ESS?

This page serves as an overview of the entry points to ESS, providing guidance on how companies can become suppliers to ESS. Companies interested in ESS business opportunities can register a business profile in the ESS Supplier Portal to enable matching of potential suppliers with ongoing procurements.

What is the energy supply in Hungary compared to 2021?

III. The primary energy supply in Hungary was 1.080.301 TJ in 2022, which marks a 6% reduction compared to 2021. About half of this consumption is covered by domestic production, with the remaining half imported. Hungary's import dependency is comparatively high (natural gas: 86.4%, oil: 88.4%, coal: 39.5%).

How much storage capacity will Europe have by 2026?

By the end of 2026, the European industry association even expects total storage capacity to increase by 300% to 32.2 GWh, equivalent to 3.9 million European households optimizing the self-sufficiency of their power supply and limiting their electricity costs.

Why has the supply of residential BESS increased in 2024?

At the same time, the supply of residential BESS has increased because of the appearance of Asian players on the large and comparatively attractive European market; our research shows that European residential BESS installation represents 71 percent of global installations in 2024.

Does demand reduction contribute to energy security in Hungary?

As Hungary has very low domestic production, up to 10 percent of its natural gas consumption, it is highly dependent on imports, mainly from Russia. Demand reduction would contribute to energy security but this is only desirable as a result of increased energy efficiency rather than demand destruction, resulting in industry disruption.

Where can I find current business opportunities at ESS?

Current and forthcoming business opportunities at ESS are posted in the Procurement Listings. Completed tenders are published quarterly in the Contract Award Notices. All procurement follows the European Spallation Source ERIC Procurement Rules, which align with the EU treaty principles of transparency, non-discrimination and competition.
