Which segment dominates the India rooftop solar market in 2024?

The industrial segment continues to dominate the India rooftop solar market, holding approximately 54% of the total market share in 2024, with an installed capacity of around 8,010 MW.

What is the future of rooftop solar in India?

Rooftop solar, particularly in the Commercial & Industrial (C&I) segment, is expected to play a pivotal role in this growth. As of FY25, India's rooftop solar capacity stood at 17.02 GW, and increasing awareness among businesses about reducing operating costs and meeting sustainability targets is fuelling adoption.

Which is the fastest growing segment in India rooftop solar market?

The residential solar segment is emerging as the fastest-growing sector in the India rooftop solar market, projected to expand at a CAGR of approximately 23% during 2024-2029.

Why are industrial consumers adopting rooftop solar solutions?

Industrial consumers are increasingly adopting rooftop solar solutions due to the attractive cost economics, with solar panels offering a levelized cost of power as low as INR 2-3 per kWh over their 25-year lifespan, compared to the much higher grid tariffs of INR 7-9 for industrial power.
