Does alternus own clean earth?

Alternus will own around 64% of Clean Earth at closing as a result. The webinar will provide the very latest trends in PV module supply and what is important when assessing product quality and reliability. How many of the imported modules for example, from Southeast Asia and India, are based on n-type TOPCon and heterojunction now?

Sustainability is not merely a commitment at Alternus; it is the cornerstone of our business ethos. Our core activities involve the development, installation, ownership, and operation of utility-scale solar photovoltaic (PV) parks, strategically contributing to national decarbonisation targets by significantly reducing reliance on fossil fuel energy.
