shared with Saint Martin, a French overseas collectivity. The geography is hilly and small, covering just 34 square kilometres, which could present certain challenges for extensive infrastructure development. The population of approximately 42,000 people is ...

PHILIPSBURG - On April 24, 2014, the Council of Ministers approved a rather unique document: the National Energy Policy for Country Sint Maarten. The document has an ambitious subtitle: Towards a sustainable development. It looked like the era of renewable energy had finally arrived on the island. But more than five years later nothing much [...]

What are Power Optimizers for Solar Inverters? Power optimizers are additional devices used in Solar Power generation to convert DC to DC (that's right, not a typo, DC to DC). Power optimizers tune the performance of individual panels in the Solar power plant. Optimizers are required because the photoelectric effect does not produce the same energy in all the panels equally. ...

On a macro-economic level, energy costs are of great concern for the Government of Sint Maarten. In 2012 Sint Maarten spent a total of NAf 264.8 million on importing of oil products, which comprises a remarkable 18% of the total GDP<sup>1</sup>. This shows the heavy dependency on imported oil for Sint Maarten, and its country's vulnerability as this ...
