

What are the main sources of energy in the Marshall Islands?

MEC,KAJUR,the College of the Marshall Islands and the University of the South Pacific,all carry out capacity building in support of energy activities. Most of the primary energy supply (90%) comes from petroleum,with biomass used for cooking accounting for nearly all the rest.

What does the 2009 National Energy Policy mean for the Marshall Islands?

This led to the endorsement of the 2009 National Energy Policy,along with the Energy Action Plan,which aims for "an improved quality of lifefor the people of the Marshall Islands through clean,reliable,afordable,accessible,environmentally appropriate and sustainable energy services."

Why did the Marshall Islands declare a state of economic emergency?

In 2008, the Marshall Islands experienced unprecedented increases in the costs of imported petroleum fuel and staple-food items. The global price surge forced our government to declare a state of economic emergency, with the nation no longer able to pay for the imported diesel required to generate power.

Does the Marshall Islands support Irena?

The Marshall Islands,a strong and consistent supporterof IRENA's mission,is one of those countries. To develop grid-connected renewable power,the country will need a well-articulated action plan,including provisions for financing and training.

"The Republic of the Marshall Islands (RMI) submitted its second NDC in 2018 at COP 24 in Katowice,
making it the first country in the world to do so. The revised NDC set binding targets of reducing greenhouse
gas emissions by 32 percent below 2010 levels in or before 2025 and by 45 percent before 2030.

Majuro, Marshall Islands - In a historic leap toward energy independence, the Republic of the Marshall Islands
(RMI) has secured a game-changing grant equivalent to US\$60 million from the World Bank (WB), building
on the momentum of its achievements of the WB-funded Sustainable Energy Development Project (SEDeP).
This landmark agreement - aptly ...
