Besides, energy startups are leveraging blockchain-driven smart contracts to ensure trusted transactions in peer-to-peer (P2P) electricity trading. This edition of Energy Tech Review highlights the recent developments in the smart energy arena and insights into how companies are aligning with these trends to transform legacy practices.

Porque Smart Energy? En SES cada instalación es realizada con los altos estandares de seguridad utilizado en la industria de electricidad y prestandole la atención necesaria a cada detalle. Su seguridad es nuestra prioridad. oprimir parra mas detalle

Higher energy production. Clean solar panels help create more energy! Some dirty panels can lose up to 30% of its energy efficiency. All solar panels are protected with a sheet of clear glass like a car window. When the glass gets dirty UV rays have a hard time reaching the cells that produce energy. Stops potential damage.
