

Solar cell system North Macedonia

How will a new solar plant help Macedonia?

Andi Aranitasi, EBRD Head of North Macedonia, said: "The new solar plant will help the country, which faces severe air pollution from coal, to reduce its reliance on ageing coal-fired infrastructure. It will also generate cheap electricity in times of very high market prices.

Who built the first solar plant in North Macedonia?

The 10MW solar plant, built on the site of the spent Oslomej lignite coal mine, was constructed by the public company JSC Elektrani na Severna Makedonija (ESM). This is the company's first solar plant in North Macedonia, developed with a view to diversifying energy sources and supporting decarbonisation.

How much electricity does Macedonia produce?

ESM, a public electricity generation utility owned by the government of North Macedonia, provides 90 per cent of the country's domestic electricity production - about 3,600 GWh from two thermal power plants and 1,250 GWh from eight hydropower plants.

What are the decarbonisation plans in North Macedonia?

Decarbonisation plans in North Macedonia are taking a big leap forward. The European Union (EU) is supporting ESM, the state-owned electricity company, to implement a 30 MW photovoltaic (PV) project consisting of 10 MW on a portion of the exhausted coal mine of thermal power plant Oslomej, and 20 MW adjacent to the thermal power plant Bitola.

Where is the largest photovoltaic plant in the Western Balkans?

Mey Energy completed a 55 MW photovoltaic facility in Novaci in North Macedonia. It is currently the largest in the region. The Western Balkans are slow in the deployment of solar power, but the list of utility-scale photovoltaic units is gradually becoming bigger.

Which country has the largest solar power plant in Bosnia & Herzegovina?

Right after a 45 MW facility in Bosnia and Herzegovina entered a trial phase, North Macedonia again became the country with the largest one in the region. Mey Energy said it finished its 55 MW solar power plant in the municipality of Novaci, in the heart of the country's coal industry. The system was built next to the Suvodol open pit.

1 · North Macedonian power utility Elektrani na Severna Makedonija obtained a loan for the construction of solar power plant Bitola 2 and the expansion of its Bogdanci wind farm. It also received a donation for photovoltaic projects Bitola 1 and Oslomej 2.
