

Solar for homes Palestine

What is the potential for solar energy in Palestine?

There is high potential for solar energy in the Palestine, with a daily average solar radiation of 5.4 kWh/m² which should encourage its use for mass applications like cooking, industrial and domestic heating, water pumping, rural electrification, desalination etc.

What is solar water heating in Palestine?

Palestine receives about 3,000 hours of sunshine per year and has an average solar radiation of 5.4 kWh/m. Domestic solar water heating (SWH) is widely used in Palestine where almost 70% of houses and apartments have such systems. In fact, Palestine is one of the leading countries in the field of SWH for domestic purpose.

What is IFC's rooftop solar energy facility in Gaza?

The Palestine Real Estate Investment Co's (PRICO) rooftop solar energy facility is IFC's first large-scale solar energy installation in Gaza and is supported by the IFC-Canada Climate Change Program.

How did solar power work in Gaza?

We renovated 20 desalination plants that provided 15,000 Liters/day across the Gaza strip by deploying solar systems to power them. We installed tens of solar systems to support nebulizers and electric mattresses, in homes with disabled individuals. We installed solar street lights in communities serving more than 7000 people.

What is the largest solar installation in Gaza?

PRICO is the largest solar installation in Gaza and the first one for which an ad-hoc grid integration solution has been developed with the grid operator to ensure power evacuation and 24/7 continuity of supply. This is a standard-setting benchmark that is replicable and scalable in other locations.

How can Qudra help bridge the energy gap in Palestine?

By expanding solar access, Qudra is helping bridge this energy gap, enabling communities to thrive and industries to grow. Operating in Palestine presents unique challenges, particularly in securing financing and dealing with the political complexities that often disrupt the region's economic stability.
