An AGM solar battery, short for Absorbed Glass Mat, has many benefits over standard "flooded" batteries. Since AGM batteries are a type of lead-acid battery wherein the caustic components inside are completely sealed, users can place them in awkward positions, like on their side, without fear of spilling the acid inside.

FREE Delivery Across San Marino. EASY Returns & Exchange.

Bear in mind that AGM batteries are 99% saturated with electrolyte. They are designed to be non spill able, in the event that a case gets cracked the electrolyte is supposed to stay suspended in the matting. Adding water seems like it would dilute the electrolyte to a lower specific gravity than a fully charged battery would like to see.
