A 2kW solar panel system typically consists of 6-8 solar panels (depending on panel quality) and has a surface area of 10-15m2. A 3kW system typically consists of 8-12 solar panels and covers a surface area of 15-20m2. Because a 5kW system typically consists of 15-20 panels, the total rooftop space required for a 5kW system is between 25 and 35m2.
