Solar system distribution Belize

Based on the two major Solar PV companies in Belize, the current price for on-grid Solar PV, including installation range from BZD 4.5-7.0 per Watt. Annual maintenance costs for on-grid systems is approximately 2-5% of system cost. Projected approximate cost to supply and install a unit on-grid residential system is as follows:

The system would source power from the Solar System but would use electricity from BEL's grid if needed. Instead of having a system which has a generator as a backup supply, BEL's grid would serve as the backup power supply. In other countries, the excess power that your solar panel system would produce could be sold to the Electric Company.
