Wholesale Solar Battery Charger As the name suggests, a solar charger is a charger that employs solar energy to supply electricity to devices or batteries. It can usually charge lead-acid or Ni-Cd battery banks up to 48 V and hundreds of ampere-hours (up to 4000 Ah) capacity. Such type of solar charger setups generally uses an intelligent charge controller. A series of solar ...

Solar tiles for roof Eswatini

Thankfully, solar panel mounting manufacturers like Renusol have designed systems that mount panels to a pitched roof while ensuring they are angled optimally to generate maximum power. How does pitched-roof mounting work? When mounting panels to a tiled pitched roof, they will usually be attached to the roof so that they sit above the tiles.

A budding entrepreneur in the recycling sector may be the first in the world to manufacture solar roofing tiles from scrap plastic and glass that are salvaged from the city's waste collection sites and landfills. The solar tiles are used to power households and are a cheaper, lighter and an eco-friendly option than the conventional roof tiles.

The installation process involves a full retiling of your roof, using both solar and non-solar tiles to create a seamless new roof. Our team starts by surveying your roof to ensure it is suitable for installation before booking your project and proceeding with the work.
