

# Solargis com Cabo Verde

How do I contact Solargis?

For commercial enquiries, please contact Solargis directly. The primary aim of this Global Solar Atlas is to provide quick and easy access to solar resource and photovoltaic power potential data globally, at a click of a mouse. GIS layers and poster maps showing global, regional, and country resource potential can be found in the Download section.

Who is Solargis?

The World Bank Group has selected Solargis as its global provider of solar data and related solar energy assessment services. This Global Solar Atlas has been prepared by Solargis under a contract to The World Bank, based on a solar resource database that they own and maintain. For commercial enquiries, please contact Solargis directly.

What is Solargis data?

Solargis data is available for past, present, and future periods and is updated in real time. We can meet your energy assessment needs from project conception to routine daily management. Our team has more than 20 years of experience in solar resource assessment and PV energy modeling.

Is Solargis a reliable solar database?

Multiple independent studies have confirmed Solargis to be the most reliable solar database. Quality of our data can be transparently verified at any location. Our methodologies are peer-reviewed and published. Solargis data and services are available for 99% of the world's population and cover a 30-year history.

What can Solargis do for You?

Discover Solargis' solutions for all stages of the solar power plant lifecycle. From site selection and yield simulation to designing, monitoring, and forecasting, our software and data ensure you get the right insights. Scan and compare tens or even hundreds of potential sites. Get an in-depth analysis of those with the highest solar potential.

What is high-resolution Solargis data?

High-resolution data (250 m spatial resolution and 1-min or 15-min temporal resolution) better represents typical and extreme weather and improve the accuracy of solar energy simulations. Solargis data has been validated at more than 1500 public and commercial locations globally, and the model validation is systematically expanding.

Los datos de Solargis se validan en más de 1500 puntos de mediciones públicos y privados. 2015: La metodología Solargis sobre datos TMY se publica en Energy Procedia. Los datos TMY basados en esta metodología se convirtieron en un estándar de la industria. Solargis entregó datos TMY para aproximadamente 10.000 proyectos a gran escala al ...

Solargis Analyst is designed to speed up your analysis processes. Load and compare various datasets to identify differences and investigate potential issues. Run efficient analysis of solar data without having to write a single line of code.

En Solargis, hemos apoyado una d#233;cada de crecimiento en el sector solar, y seguimos apoy#225;ndolo en su transici#243;n hacia una nueva fase de desarrollo y explotaci#243;n posterior a las subvenciones. Reducir el riesgo en este panorama cambiante exige centrarse en la eficiencia. Los propietarios de activos solares buscan sacar el m#225;ximo partido de ...

GeoModel Solar rebranded to Solargis. 2017: Launch of the Global Solar Atlas developed by Solargis as part of the World Bank Group's ESMAP initiative. 2018: Solargis API is released. 2019: The Solargis Prospect app is launched, making the pre-feasibility phase easier and more reliable. The app also features a set of high-resolution maps that ...

For commercial enquiries, please contact Solargis directly. The primary aim of this Global Solar Atlas is to provide quick and easy access to solar resource and photovoltaic power potential ...

The maps and data have been prepared by Solargis for The World Bank. They are provided under CC BY 4.0 license with the following mandatory and binding addition ... Cabo Verde. Mid-size maps. Direct normal irradiation. Optimal press size: 156 x 179 mm. Format: PNG, 641.01 kB. Download. Global horizontal irradiation.

The map below shows the sites at which the Solargis GHI time series was validated against the ground-measured data. By clicking on a site, its details can be displayed, including the basic site characteristics, and the validation statistics - bias, Root Mean Square Deviation (RMSD), and the number of valid data pairs.

Explore the solar photovoltaic (PV) potential across 3 locations in Cabo Verde, from Praia to Cova Figueira. We have utilized empirical solar and meteorological data obtained from NASA's ...

La colecci#243;n m#225;s grande de mapas de radiaci#243;n solar gratis. Descargue mapas gratuitos de potencial de energ#237;a GHI, DNI y fotovoltaica para varios pa#237;ses, continentes y regiones.

The VISIT CABO VERDE APP allows you to discover the islands, plan your trip and enjoy the best experiences we have to offer. Immerse yourself in the delicious flavors of gastronomy, venture into unusual nature, fall in love with the mystique of Creole culture, be enchanted by the magic of music, and much more. ...

1.5.1 Localização geográfica de São Vicente no arquipélago de Cabo Verde . ... pode-se ver os mapas dos recursos eólicos e solar obtidos através da aplicação da metodologia na SOLARGIS para a ilha de Santiago, Cabo Verde. Figura 16: Média da radiação solar global na ilha de Santiago obtido partir da aplicação da SolarGIS ...

For Solargis time series of albedo, data sources that have a long historic record and reasonably high temporal resolution (at least daily values) are used. These include MODIS products MCD43A1 and MCD43A3. However, these products present missing data (data gaps), mainly due to persistent cloudiness.

Solar Resource & Meteo Assessment Site Adaptation of Solargis Models Quality Control of Solar & Meteo Measurements Customized GIS Data PV Energy Yield Assessment PV Performance Assessment PV Variability & Storage Optimization Study ...

Explore los parámetros y la especificación de datos de la API SFTP de Solargis, que proporciona datos solares, meteorológicos y PVOUT para la evaluación del rendimiento de sus centrales eléctricas.
