Can a solar generator be used as a backup generator?

In reality, the solar generator is just a battery-powered generator. As long as the battery inside the solar generator stays charged, it will be able to power a few of devices as a backup generator. You can charge the battery in the generator using external solar panels, or using a wall outlet or even a car charger.

Why switch to solar power. Sri Lanka is one of the most expensive energy markets in the world. The use of solar can significantly reduce or eliminate your electricity bill as well as ensure an uninterrupted power supply. The average payback on solar power in Sri Lanka is 5 years. After this payback period, you are earning money on your roof.
