

Successful bid price of solar plus storage project in Serbia 2026

How many applications were submitted for market premiums in Serbia?

Forty applications were submitted for market premiums within the procedure for the second round of renewable electricity auctions in Serbia, Balkan Green Energy News learns. The call for wind and solar power projects was launched in late November and the deadline for applications expired on February 5.

Who owns the large-scale solar and battery energy storage project?

Delivering the utmost flexibility to the Serbian government, the Large-Scale Solar and Battery Energy Storage Project being developed by UGT Renewables will be owned and operated by Electric Power Industry of Serbia (EPS) once completed.

How much does electricity cost in Serbia?

Serbia changed both the price ceiling and the criterion for evaluating the bids. The maximum acceptable bid for wind farms is EUR 79 per MWh, compared to 105 per MWh last time. The ceiling for electricity from photovoltaic plants is EUR 72 per MWh, while it was EUR 90 per MWh last time.

The contract is the latest in a line of solar projects backed by Serbia's Ministry of Mining and Energy this year, which includes plans for a 1 GW solar panel factory and ...

With the entire quota now allocated, the construction of 10 new wind and solar power plants will add 645 MW of new renewable energy capacity. The auctioned prices were ...

Turkish renewables company Fortis Energy announced today the acquisition of a 180 MW solar project, coupled with a 36-MWh battery energy storage system (BESS), in Serbia.

The report provides practical guidance to policymakers and project developers on conducting initial feasibility assessments, selecting suitable business models, allocating risks appropriately, and navigating the competitive ...

SJVN Ltd has awarded its significant 1.2 gigawatt (GW) solar power project, bundled with energy storage, to six developers, the company announced. The winners include ...

The Major Solar Projects List is a database of all ground-mounted solar projects, 1 MW and above, that are either operating, under construction or under development. The list is for informational purposes only, reflecting ...
