

Sun africa The Netherlands

Why should you choose Sun Africa?

We deliver competitive, sustainable renewable energy solutions that improve quality of life, protect our environment, and streamline processes for leaders and decision makers alike. With tens of billions of dollars worth of projects under our belt, Sun Africa is at the center of Africa's push to meet growing energy needs sustainably.

Where does the sun set in South Africa?

The sun sets spectacularly in front of the Atlantic Ocean in this location, with the majestic Table Mountain Range steeply lifting upwards towards the sky in the back. Diamond House nestles into the slopes, hiding itself from the mighty winds of the 'Cape of Storms' in Camps Bay. Welcome to our Guest House.

Why should you partner with Sun Africa?

When you partner with Sun Africa, we are with you every step of the way. From feasibility to design and construction to management, Sun Africa is at the forefront of clean energy in Africa.

Who is Sun Africa's sister company?

Sun Africa's sister company, UGT Renewables, is focused on delivering clean energy solutions throughout Eurasia and Latin America. With our combined strength, we're changing the world for the better - one utility-scale solar project at a time. We're only as strong as the country we make connections with.

Why is solar energy important in Africa?

Africa has high solar potential, making solar PV systems an effective method of obtaining energy. Battery storage solutions provide long term energy management and can counteract fluctuations in customer loads. Solar energy can effectively supplement electricity supply from an electricity transmission grid, such as when electricity demand peaks.
