The Sunfit Tubular Battery is a powerful and reliable energy storage solution, designed to meet the demands of various power applications. With a robust tubular plate construction, this battery is engineered for longevity and superior performance, making it ideal for both residential and commercial use in solar power systems, backup power, and off-grid installations.

Sunfit Inverter battery is a rechargeable battery that integrates a solar cell with battery power storage. The Inverter batteries are rechargeable batteries which have been developed specifically for use in photovoltaic systems. Sunfit Deep Cycle Inverter Battery is specially designed for optimum performance, very long life, and high reliability.
