

# Sungrow energy storage hardware engineer factory operation

What is Sungrow solar & energy storage system?

Relying on Sungrow's integrated solar plus storage solution, this plant is able to provide clean electricity with constant power in the long run, and helps improve the overall stability and security of Thai power grid. Sungrow's Liquid Cooled Energy Storage System Better Supplies the BESS Plants

How do I become a Sungrow engineer?

Proactively keep abreast of all technical updates on Sungrow products and underlying technologies. 1. Minimum of a Bachelor's degree in Electrical, Electronics, Power Systems, Automation or related engineering, Master's degree a plus. 2. Minimum of five (5) years of experience in the renewable energy industry.

Why should you work at Sungrow?

Employees could demonstrate personal values and pursue a clean and sustainable future with Sungrow. Sungrow is embracing the great opportunity of our rapid globalization, even though the world is a place of increasingly complex challenges. We look forward to the ambitious and confident you to create a bright future with us.

Why does Sungrow have a continuous talent development system?

For the purpose of promoting employees' development and fulfilling their dreams, Sungrow has established a series of continuous talent development systems. Sungrow will pursue a C&B structure with high competitiveness in the global market.

Sungrow, the world's largest PV inverter manufacturer, announces the official start of operations of Sungrow-Samsung SDI Energy Storage Power Supply Co., Ltd. at a ...

In early February 2025, the Bramley 331MWh BESS, developed by BW ESS and supplied with Sungrow Battery Energy Storage Systems (BESS), officially went into commercial ...

Sungrow Power Supply Co., Ltd. is a publicly listed Chinese company founded in 1997 and headquartered in Hefei, Anhui. It is a world-leading provider of photovoltaic ...

Founded in 1997 by University Professor Cao Renxian, Sungrow is a leader in the research and development of solar inverters with the largest dedicated R&D team in the industry and a broad ...

The Performance Engineer position is a remote position that plays an important role with this rapidly growing company. This is a very dynamic and fast-track position reporting to the Head of BESS ...
