

Syria sunnova company

With no end in sight for the devastating conflict, state energy firm Syrian Petroleum Company (SPC) is largely powerless to halt the decline. Opec, the oil producer s group, believes Syrian oil output will fall to a new low of 40,000 barrels a day (b/d) in 2013. Production hit a record high of just under 500,000 b/d in 1996, but has been in ...

Typically only an authorized rep of a company is allowed to maintain/work on a system. So they could try to hide behind that language to dump your workmanship warranty... with that said if you've taken all reasonable and customary steps to get in touch with them and they are simply non responsive you would have good grounds to push back on that from a legal perspective.
