

Tbea energy storage products

What is TBEA's new energy storage system?

The Chinese manufacturer has designed a new high-density 400 kW+power conversion system (PCS) and 6.25 MWh battery energy storage system(BESS) to cut costs and boost deployment speed. TBEA has unveiled two new energy storage products at the 13th Energy Storage International Summit and Exhibition (ESIE2025) held earlier this month.

What is TBEA new energy's second product?

TBEA New Energy's second product, also unveiled at ESIE2025, complements the PCS with additional storage capabilities, though specific details were not disclosed. Both products align with the company's focus on advancing energy storage efficiency and grid reliability, contributing to global sustainability goals.

What applications does TBEA offer?

It caters to a variety of applications,from commercial and industrial settings to large-scale standalone energy storage plants. TBEA also introduced a 20-foot containerized AC/DC integrated system with a capacity of 6.25 MWh.

What makes TBEA a good energy service provider?

As an excellent green wisdom energy service provider in the world,TBEA specializes in providing excellent solutions and improving energy efficiencyfor clients in the new energy industry.

Does TBEA offer a 20-foot containerized AC/DC integrated system?

TBEA also introduced a 20-foot containerized AC/DC integrated systemwith a capacity of 6.25 MWh. According to the manufacturer,this system offers a 25% increase in energy density compared to conventional 5 MWh units,while reducing unit investment costs by 6-10%.

What can TBEA do for You?

Meanwhile, in more than 30 countries, TBEA provided system solutions and turnkey projects which including survey, design, construction, installation, commissioning, and training to operation and maintenance.
