

Tcl invested in energy storage companies

What is TCL & SunPower?

The launch reflects the combined strengths of TCL's large-scale manufacturing and SunPower's solar innovation, offering a wide range of energy solutions tailored for homes, businesses, and large-scale installations. Leading the lineup is the SunPower Home Energy Storage system.

Why did TCL invest in CSOT?

"Our significant investment in CSOT is part of TCL's business strategy to achieve success in the global TV industry, by fully-integrating the TV manufacturing process," said Tomson Li, Chairman and CEO of TCL Corporation. "All our efforts will benefit our customers who will enjoy higher-quality TV products."

What are TCL solar panels?

In addition to the M Class, a new range of TCL Solar panels is being introduced using both back-contact and TOPCon technologies. These panels are constructed with a glass-glass design and come with extended warranties, offering a cost-effective and dependable solution for a wide range of installations.

What makes TCL a great company?

GREAT CULTURE At TCL, we know that our culture is what makes us strong. It's our commitment to provide an environment that embraces diversity, excellence, learning, and laughter. Working at TCL, you'll find a highly professional, collaborative culture with top-tier benefits and amenities.

What is TCL SunPower M class solar?

The system also integrates with other TCL smart appliances like heat pumps and is fully controllable via the updated SunPower app, offering users more flexibility and insight into their energy usage. TCL SunPower is also introducing the M Class solar panel series, featuring the company's latest generation of back-contact technology.

Does TCL solar have a projector shaped like a Rubik's cube?

Last month, TCL Solar made its debut in South Korea, injecting new momentum into the country's renewable energy sector. (Via) TCL has launched the PlayCube, a portable projector shaped like a cube and inspired by the Rubik's Cube. The projector was showcased earlier this year at CES.
