Tokelau was the first nation in the world to go 100% solar in 2012. Now the country is aiming to keep its fully renewable energy status in the future using wind power. This is going to reduce the need for diesel fuel backup in prolonged times of cloudy weather, and when the solar cell system needs maintenance.

The solar panels and inverter must be on the lists of Clean Energy Council approved modules and inverters. The value of STCs you receive is based on the estimated amount of electricity your solar system will generate until 2030. This amount depends on: the size (kW) of your solar system (up to a maximum of 100 kW) ...
