

Trinidad and Tobago eliiy power co ltd

Who owns Trinidad and Tobago Electric Company?

The Trinidad and Tobago Electric Company Limited was bought by a Canadian businessman in 1901. The company later came into being as the Trinidad and Tobago Electricity Commission (T&TEC) by virtue of the T&TEC Ordinance No. 42 of 1945.

Who produces power in Trinidad & Tobago?

These producers are the Power Generation Company of Trinidad and Tobago (PowerGen) giving a total of 1,344 MW, Trinidad Generation Unlimited (TGU) giving 720 MW and Trinity Power Ltd. giving 225 MW. All power stations in Trinidad and Tobago are fueled by hydrocarbons. T&TEC was formed in 1946 after the merger of independent companies.

How is electricity produced in Trinidad and Tobago?

In Trinidad and Tobago (T&T), electricity is primarily produced by burning natural gas. The heat energy released is used to produce steam. This steam is then used to turn a steam turbine which is connected to an electrical generator to produce electricity.

Which power stations in Trinidad and Tobago are fueled by hydrocarbons?

All power stations in Trinidad and Tobago are fueled by hydrocarbons. T&TEC was formed in 1946 after the merger of independent companies. It supplies over a million residential, municipal, commercial and industrial customers.

What is the largest power plant in Trinidad & Tobago?

The 720-megawatt (MW) TGU facility is the largest combined-cycle power generation plant in the Caribbean and currently supplies approximately 50% of Trinidad & Tobago's electrical energy.

Who owns Trinidad & Tobago (TGU)?

TGU is owned by the National Investment Fund Holding Company Limited (NIF), a parastatal company established by its only shareholder, the Republic of Trinidad and Tobago and is located at the Union Industrial Estate, La Brea, Trinidad and Tobago.

Ever since its establishment, ELIYY Power CO., Ltd. has been providing cells, modules, battery systems and energy storage systems (ESS) for stationary use and for starter batteries and safety is prioritized as ELP philosophy, from R&D to the end-of-life. Today, ELP would like to announce the basic policy to ensure safe use of used ELP products as follows.

Based on this certification, ELIYY Power carries out these tasks in a safe and environmentally friendly way. As all of the waste materials and components extracted from battery cells are recycled into steel, copper, aluminum, plastics and so ...
