

# Turnkey solar with battery EPC contract price in Poland

Did European energy secure a contract for a battery project in Poland?

European Energy successfully secured a contract for several battery projects in Poland. The Polish Transmission System Operator Capacity Market auction has awarded a 17-year contract, indexed to inflation, for four battery projects to European Energy.

What does the EPC contract mean for Econergy?

The EPC contract constitutes a significant milestone in Econergy's activities in Poland, with the project being their first to reach this stage in the country. The project, located in the city of Resko in the Zachodnio-Pomorskie Municipality, will have a total installed capacity of 51MW and is due to become commercially operational by July 2023.

Why should European Energy Invest in battery projects?

European Energy's battery projects also align with broader European Union goals to achieve net-zero emissions and enhance energy security. By expanding its presence in the battery sector, the company aims to become a leader in energy storage, facilitating the transition to a cleaner and more resilient energy grid.

Who is responsible for the solar projects in Biesiekierz?

Nomad Electric is responsible for the engineering, procurement, and construction of the two solar farms in the Biesiekierz commune, providing turnkey delivery of the projects. Izabela Mielniczuk, Director of International Business Development at Nomad Electric says: "We are pleased to support PAD RES with the delivery of this investment."
