By expanding Solar's presence in Czech Republic and teaming up with the EAME Remanufacturing Center in Zatec, the Solar team is now able to manage more of EAME's transactions locally. Currently, the EAME Product Center has approximately 75 employees. The new facility will improve overall response time for customers in the region.

The paper outlines the various machine learning algorithms and methodologies Solar Digital utilizes to detect the anomalous operation of industrial turbomachinery. Machine learning and proactive anomaly detection allows Solar Turbines to dramatically improve the availability and reliability of connected customer equipment all over the world.

A project combining gas turbines and BESS technology in the Czech Republic has been put into commercial operation. ... Germany-headquartered battery manufacturer Varta will receive EUR300 million (US\$338 million) of government funding to develop large format lithium-ion cells, which has been deemed a project of potentially strategic interest ...

Solar Turbines is one of the world's leading manufacturers of industrial gas turbines. Their turbines are used in electric power generation, gas compression and pumping systems. You can see how the turbines work in the video. Did you know... Solar's customers put the company's products to work in many areas. Just where?

The company employs more than 10,200 people and operates manufacturing facilities in Germany, Spain, Brazil, India, Mexico, and the US. Last month, Nordex announced that it had received orders for 500MW of wind turbines for projects in Canada.. The order included 74 of the company's N163 turbines, along with service agreements lasting between 15 and 30 ...
