Battery Technology: The type of battery technology employed plays a crucial role in market share analysis. Lithium-ion batteries currently dominate the market, further segmented by chemistries like NMC, LFP, and LCO. Companies with a diverse portfolio of advanced battery technologies are likely to gain a competitive edge.

What to be aware of when working with Latvian IT companies. There are not too many things that are challenging for Latvian IT companies, and probably, like in all three Baltic countries, Latvia faces the same problem - limited human resources. Out of 2 million people in Latvia, 4.5% are enrolled in the IT industry.
