WSRW has produced four reports on the energy industry in occupied Western Sahara, two on renewables and two on oil and gas. Totally Wrong (Citation 2013b) focuses on the activities of the Total oil company in occupied Western Sahara. At the time, Total was the enterprise most heavily involved in oil exploration and had conducted the most ...

These planned energy exports would make the European and West African energy markets partially dependent on energy generated in occupied Western Sahara. The Saharawi people are 500,000: around 30-40,000 live under the Moroccan military occupation and the rest live in the Tindouf refugee camp (the capital of the exiled SADR) in Algeria and some ...

"This is a momentous victory for the people of Western Sahara. At a time when international law is under pressure, it is fundamental that the EU follows its own court and stops collaborating with the occupier through illegal trade agreements", stated Western Sahara Resource Watch. This morning, the EU Court of Justice issued a landmark ruling.

Western Sahara Resource Watch, a Brussels-based NGO allied to the independence movement, estimates that by the end of the decade occupied Western Sahara could be supplying half of all Morocco's wind energy and a third of its solar energy, much of it headed for Europe. Morocco insists that the territory is part of Morocco.

The Lumian Energy team identified that the two fixed-speed drive compressors were the most energy-consuming points of the Palet Global production facility. They recommended replacing the existing compressors with high-efficiency class, new-generation variable-speed drive compressors. The payback period for the investment was calculated to be 2 ...

Morocco to Double Green Energy Output in Western Sahara Ahead of 2030 World Cup. Morocco aims to double green power output in its southern provinces by 2027, investing \$2.1 billion ahead of co ...

The conflict in Western Sahara has been unresolved for fifty years. While Morocco is positioning itself as a pioneer in green energy, climate change is exacerbating the ...

Morocco drives renewable energy projects in Western Sahara. Morocco has claimed authority over Western Sahara since 1975, but the UN does not recognise Moroccan control, calling Western Sahara a "non-self-governing territory." The UN has called for a referendum to decide the region's future.

More than eight years have passed since Siemens first issued a press release regarding a contract for construction of energy infrastructure in occupied Western Sahara. The company then described the territory as "Southern Morocco". Now, it has done that again. In a press release [or download] of early September, Siemens Gamesa Renewable Energy (SGRE) announced that ...

UNITED NATIONS (AP) -- The U.N. envoy to Western Sahara suggested dividing the territory between Morocco and the pro-independence Polisario Front as a way to settle the decades-long conflict.. Staffan de Mistura proposed partition as one potential way to satisfy both sides and give residents a chance to decide under who they want to live, ...

Siemens Energy wird in Bezug auf die Westsahara nur mit der marokkanischen Regierung in Kontakt treten, teilte das Unternehmen jüngst mit. Unterstützen Sie uns . Die Besatzung der Westsahara. Der Fluch der Ressourcen ... Western Sahara Resource Watch arbeitet daran, die Plünderung der Westsahara aufzudecken und Unternehmen und Regierungen ...

We focus on wind energy development in two illegally occupied territories, namely occupied Western Sahara (oWS) and the occupied Syrian Golan Heights (oSGH). We argue ...

?After months of hard work with Eksim Pulse, we successfully held a highly productive demoday today! With the support of Dicle Elektrik, Eksim Ventures, and EPDK as Lumian Energy, we had the opportunity to show our innovative solutions for the energy sector and improve ourselves in many areas. We have learned so much from this journey, and it has given us even more ...

Western Sahara Resource Watch RE. ENVISION ENERGY'S SUPPLY OF WIND TURBINES TO OCCUPIED WESTERN SAHARA Dear Mr Zhang, Western Sahara Resource Watch (WSRW) is privileged to be writing to you. We are writing in relation to the announcement that Envision Energy has been contracted to supply wind turbines to a wind farm in Dakhla.

Through its roll-out of massive energy projects in occupied Western Sahara, Morocco becomes more economically connected to, and dependent on, the territory it holds under illegal, military occupation. It intends ...

The Lumian EoT(Energy of Things) Platform can integrate with any OSOS (Automatic Meter Reading System) system located in Turkey. Without any additional hardware investment, the platform can collect and analyze electricity and natural gas consumptions. The Platform's capabilities allow ERP and MES integrations, device based tracking and remote ...

Western Sahara consumed 3,022,000,000 BTU (0.00 quadrillion BTU) of energy in 2017. This represents 0.00% of global energy consumption. Western Sahara did not produce any energy in 2017.

Western Sahara Resource Watch has today launched a report detailing how Morocco intends to build over 1000 MW (megawatts) of renewable energy plants in Western Sahara, a territory that Morocco partially occupies.
