

On 4 October, the Court of Justice of the European Union (CJEU) handed another historic win to the Sahrawi national liberation movement, known as Polisario Front, in its struggle to end Morocco's occupation of Western Sahara. The court blocked efforts by the European Commission to include the territory in the European Union's trade liberalisation and ...

Green hydrogen (GH 2) prospects in Africa are developing at breakneck speed. But the biggest questions remain unanswered. Yes, Africa has the resources but can these highly capital intensive projects be made bankable while lenders demand heavy risk premiums on African projects?

Western Sahara Resource Watch, a Brussels-based NGO allied to the independence movement, estimates that by the end of the decade occupied Western Sahara could be supplying half of all Morocco's wind ...

Xavion Energy is a leading provider of sustainable energy solutions, specializing in both crude oil and solar energy. Our mission is to provide high-quality solar panels that help our customers ...

Morocco drives renewable energy projects in Western Sahara. Morocco has claimed authority over Western Sahara since 1975, but the UN does not recognise Moroccan control, calling Western Sahara a "non-self-governing territory." The UN has called for a referendum to decide the region's future.

More than eight years have passed since Siemens first issued a press release regarding a contract for construction of energy infrastructure in occupied Western Sahara. The company then described the territory as "Southern Morocco". Now, it has done that again. In a press release [or download] of early September, Siemens Gamesa Renewable Energy (SGRE) announced that ...
